

Colors

Choose from our color palettes below to define the doors, sides and top of your unique piece. If you want a specific color match, we can do it. Call for details.

Standard Colors

Premium Colors

Options & Customization

We encourage you to take advantage of our ability to hand build each item uniquely to your instructions. This method ensures a one-of-a-kind item that will reflect your tastes! If you are unsure, we'll gladly walk you through design ideas and can even provide you with digital images for you to review before we begin production.

In addition to colors and logos, we offer chrome packages, hand-blown milk-glass globe bodies, stainless steel braided hoses, etc. We're limited only by your creativity! Here's some general information, but please feel free to call for details.

Logos

Choose from a nostalgic gasoline or automotive logo, or maybe you'd like to showcase your own business or custom logo. All we need is original artwork, and some direction on what you'd like! Additional charges may be incurred depending on the complexity.

Plating Packages

Add class and style with a chrome package. We take the metal components, polish and apply a chrome plate finish. If you want to take it even further, we can plate with other finishes like brass, silver and even gold!

Hose Options

Black rubber really creates an authentic feel, but if you want to really dress it up, add a stainless steel braided hose sleeve.
